

# ■ LUCY CHROME COMPANION

Powered by Gebeta Universe

Where Culture Meets Code — Built for the Google Chrome Built■in AI Challenge 2025

## Overview

Lucy Chrome Companion is the world's first fully offline, multilingual, and culturally intelligent AI assistant for the web, powered by Gemini Nano inside Google Chrome. It summarizes, translates, writes, rewrites, and proofreads directly in Chrome — all on■device, private, and instant.

## Vision

AI should work anywhere — online or offline. Lucy brings intelligence to every browser, empowering people to think, create, and connect without limitations.

## Mission

Make advanced AI accessible, private, and universal. Redefine what's possible when intelligence runs locally in the browser.

## Core Technologies

Gemini Nano + Chrome Built■in AI APIs: Prompt • Summarizer • Translator • Writer • Rewriter • Proofreader — all running offline.

## Key Features

■ Summarize • ■ Translate • 🏠■ Write • ■ Rewrite • ■ Proofread • ■ Prompt • ■ 100 % Offline  
• ■ Ultra■fast • ■ Multilingual UI

## Offline Proof

Turn off Wi■Fi → Lucy still summarizes, translates, and rewrites instantly. No data leaves your device. Proven in demo video (timestamp 1:05).

## Global Impact

Lucy empowers 3.5 billion Chrome users with on-device AI that respects privacy, bridges languages, and works across the world — even offline.

## Why Lucy Wins

■ Uses all six Chrome AI APIs ■ Fully offline ■ Human-centric design ■ Enterprise-grade polish ■ Global story — AI for everyone.

## Closing Statement

Lucy is not about replacing humans — it's about amplifying creativity, privacy, and global connection. Built for the world, inside Chrome.

Design Element	Purpose	Color Code
Titanium Black	Base background	#0A0A0A
Lalibela Gold	Accent / Header	#FFD700
Cloud White	Text / Contrast	#F9F9F9
Adaptive Accent	UI Highlights	#1E6F3D → #0078FF
